Geothermal Technologies Legacy Collection

Easy access to current and legacy douments sponsored by DOE

Hot Docs are the most frequently requested and downloaded documents from the legacy database.

- How is this collection valuable to you?
- What are the hot topics in the industry?
- What is the latest research?
- Who else is working in your area?

Questions like these and more can be answered with readily accessible data at:

www.osti.gov/geothermal

Knowing what researchers and those in industry are interested in should be on your radar.

Please send us your feedback:
geothermalcomments@osti.gov

The Geothermal Technologies Legacy Collection founding sponsorship by the Geothermal Technologies Program, DOE Energy Efficiency and Renewable Energy (EERE), and developed and maintained by the DOE Office of Scientific and Technical Information (OSTI).

DOE/OSTI--C146 08/2011
