

### Neutrino Oscillation or Supernovae

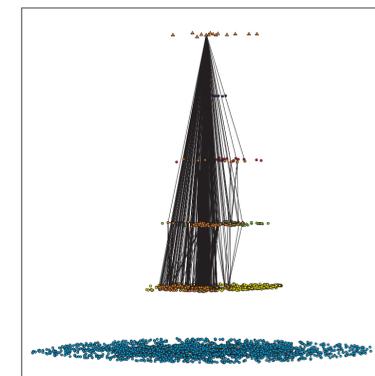

### Neutrino Oscillation and Supernovae

Neutrino Oscillation

Supernovae

Scientific investigation often requires experts from different scientific disciplines. Suppose an investigation involves both supernovae and neutrino oscillation. The first map shows us 513 candidates listed in the DOE Information Bridge who have written on at least one of the two subjects. The second map shows two candidates among those 513 who have written on both supernovae and neutrino oscillation.

# Zeroing In: Finding an Interdisciplinary Team

These maps guide us to candidates for an interdisciplinary research team, including those who are experienced in multiple subjects.
