Dr. W. H. Zinn
Director, Argonne National Laboratory
Lemont, Illinois

Dear Dr. Zinn:

On November 19, 1951, Dr. E. R. Jette, Los Alamos Scientific Laboratory, wrote to Dr. Norman Hilberry, Argonne National Laboratory, with respect to the vacuum casting of certain beryllium hemispheres. The purpose of this letter is to make a formal request of the Argonne National Laboratory to undertake this work for Los Alamos and, by copy to the Santa Fe Operations Office, to request that office to arrange for the transfer to the Chicago Operations Office of any funds required by the Argonne National Laboratory in carrying out this work.

Dr. Jette's letter stressed the importance of this work to Los Alamos and I can only add my emphatic agreement. We will indeed appreciate your cooperation in undertaking this program.

Sincerely,

[illegible]/hgs

H. B. Bradbury
Director
