Dear Mr. Parks:

According to our records, 16 of the designated units had lot 9015 material. Seven of these have been received. The remaining 55 designated units are lot 9007 material of which 39 units have been received.

Three units of lot 9007 material not found on the list were also received. They are:

Lot	Assembly S/N	Unit
9007	50994	556676
9007	51221	561039
9007	50359	419750

In reference letter (1) there appears to be two erroneous numbers. Our records of unit detonator-cable assembly association (reference 2) indicate the following:

Lot	Letter Unit	Assembly S/N	Correct Unit
9007	520241	50337 I9	620241
9015	836671-1	52586 E1	833671-1

The detonator-cable assemblies were identified in accordance with our records.
