DON'T SAY IT --- *Write It!*

DATE 3/17/67

TO Paul Santilli - Battelle Legal FROM K. L. Swinth

Re: Neutron Source

This is to inform you of our desires to take a small neutron source to the Walla Walla laboratory of the University of Washington. This source will be used to calibrate the neutron monitor used for the University's Medical Physics project at the State Penitentiary. The source will remain there for about two years after which it will be returned. If there are any legal objections we would like to know as soon as possible. cc. W. E. Wilson, K. L. Swinth
