Subject: MEXICAN ACCIDENT FOLLOW-UP

JIM:

WE HAVE RECEIVED WORD THAT THE MEXICAN SECRETARIAT FOR ENVIRONMENTAL SAFETY IS NOW READY TO MAKE ARRANGEMENTS FOR US TO CONTINUE THE CYTOGENETIC AND DOSIMETRIC ASPECTS OF OUR INVESTIGATION OF THE CIUDAD JUAREZ ACCIDENT. DR. MANUEL QUIGANO, THE DIRECTOR OF INTERNATIONAL HEALTH AFFAIRS IN MEXICO CITY, IS TO BE OUR MAJOR CONTACT WHILE DR. HERBERT ORTEGA OF PAN AMERICAN HEALTH ORGANIZATION FIELD OFFICE IN EL PASO IS TO BE OUR INTERFACE FOR LOCAL ARRANGEMENTS. WE PLAN TO PROCEED AT ONCE WITH DR. LITTLEFIELD'S CYTOGENETIC ANALYSES AND WITH GATHERING LOCAL PHYSICAL DATA FOR A SHIELDING STUDY TO BE CARRIED OUT BY ZOLIN BURSON OF EG&G, LAS VEGAS. THIS NOTE IS FOR YOUR INFORMATION AND TO ALERT YOU TO THE PROBABILITY THAT WE SHALL NEED TO CARRY OUT ED WRENN'S PROPOSAL TO DO SOME TLD EXPERIMENTS IN THE NOT TOO DISTANT FUTURE. (IN OTHER WORDS IT MAY SOON BE NECESSARY TO TRY TO FUND ED'S END OF THIS ENDEAVOR.) WE SHALL KEEP YOU INFORMED.

LUSH
