To: Dean Smyth from: Dr. Bowman

I am sending you a carbon copy of the monthly report of The Langley Porter Clinic to the Department of Institutions hoping that this will give you a further idea of the work going on at The Langley Porter Clinic. I also enclose a copy of the organization chart of The Langley Porter Clinic which was worked out by the Department of Institutions. The organization chart has to be worked out for every department in the State, and the Department of Institutions for every State hospital. The form followed, therefore, is in accordance with the rules laid down by the Department of Finance. The chart as you will notice indicates the relationship of the University of California to The Langley Porter Clinic and is self explanatory. I believe the chart makes these relationships clear and that it is a correct setup of the organization of The Langley Porter Clinic.

If you have any suggestions as to modifications of the chart, I shall be very pleased to [illegible] them.

KARL M. BOWMAN, M.D.
Professor of Psychiatry
