Mr. Ernest Coleman
Assistant Business Manager
Radiation Laboratories
University of California
Berkeley, California

Dear Mr. Coleman:

I would like to arrange the purchase of cyclotron time for the production of $K^{42/43}$. Dr. Kenneth Scott, Director of the Radioactivity Center on the San Francisco Campus has discussed the feasibility of such an arrangement with Mr. Bernard Rossi.

If it is convenient I would appreciate six one-hour bombardments(argon-alpha). For the purpose of advance planning I have enclosed a bombardment schedule. The Purchasing Department of the University of California School of Medicine will submit a purchase order under account code 69150-23-20546 to establish a blanket under which the supply of $K^{42/43}$ may be undertaken.

Naturally, if the schedule I have requested conflicts with the operating schedule of the Radiation Laboratory I will be happy to alter it in terms of your requirements.

Sincerely yours,

I. S. Edelman, M. D.
Associate Professor of Medicine
