TRANSMITTAL OF MEMORANDUMS CONCERNING PROCEDURE FOR MEDICO-LEGAL CLAIMS

SYMBOL: AECT

Following the recommendations of your memo dated September 26, 1947, the recommended procedure for medico-legal claims has been revised by Dr. Holland, Acting Medical Adviser of the Oak Ridge Directed Operations.

It should be pointed out that the Insurance Branch investigation, described under Section (c) of Inclosure 1, is conducted at the AEC region or site in which the alleged injury is said to have occurred. Any information obtained by this investigation will be transmitted to the Medical Adviser for the sole purpose of aiding him in the medical evaluation of the case. In other words, this investigation will provide all available background information to the Medical Adviser prior to his visit to the claimant's whereabouts.

With reference to Paragraph 4 of your memorandum dated September 26, 1947, the desirability of establishment of a Medical Consulting Board of Experts has been carefully considered by Dr. Holland and the AEC Insurance Claims Section and their opinion on this subject is presented in Inclosure 2.

As per your request, the revised proposed procedure for the Oak Ridge Directed Operations is hereby resubmitted for final clearance.
