

Contents

Notation	vi
Preface	vii
Foreword	xi
1 Introduction	1
2 Historical Background.....	3
The Medical Uses of Radium.....	3
The Dial Painting Industry.....	11
Early Findings on Health Effects of Radium.....	23
The Role of the Radium Cases in Radiation Protection.....	28
3 The Postwar Studies of Radium Cases	31
The Program at the Massachusetts Institute of Technology	31
Argonne Radium Studies, 1945-1960.....	35
The New Jersey Radium Research Project	51
Argonne Cancer Research Hospital and the Argonne Radium Studies.....	53
The Center for Human Radiobiology.....	64
Review, <i>Ad Hoc</i> , and Advisory Committees	72
The Study of Plutonium and Thorium Cases.....	76
4 The Hazards of Internally Deposited Radium.....	79
Bone Sarcomas.....	80
Head Carcinomas.....	87
Multiple Myeloma.....	91
Breast Cancer.....	94
Leukemias.....	99
Life Shortening in the Dial Worker Population	100
Bone Changes.....	102
5 Risk Estimates for Radium-Induced Malignancies.....	106
6 The Termination of the Radium Studies Program	113
References.....	116
Appendix: Measured Radium Cases.....	131
