SUBJECT: LLNL Human Subjects Committee Meeting

The next meeting of the LLNL Human Subjects Committee is scheduled for Friday, June 13, 1980 at 2:30 p.m. It will be held in the Business Services Conference Room, in T-2625.

The following projects will be discussed:

1. Glycophorin - A Marker for Human Somatic Cell Mutations - Jensen/Branscomb

   A mid-career development grant application has been submitted to NIH to train a physician in automated cytology analysis. A copy of the protocol and grant application are attached.

2. Human Somatic Cell Mutations - Jensen/Branscomb

   This is the only remaining funded research to be done under the DOE/NIEHS Interagency Agreement Cytophysical Studies.

3. Detection of Somatic Cell Mutations in Human Erythrocytes by Labeling With Antibodies Against Glycophorin A - Jensen/Branscomb

   Reimbursable proposal to be submitted to EPA. The work under this proposal is closely related to work under the NIH grant above. An approval request memo from Dr. Jensen is attached.

4. Pulmonary Gas - Meyer

   This project is a Navy reimbursable study to be carried out by the LLNL Hazards Control Department. A copy of the protocol is attached.

5. Heterogeneity and Properties of Plasma Lipoproteins - (NIH Grant) Shore

6. Nutrition In Heart and Vascular Disease (NIH Training Grant) Shore

7. Dietary Effects on Serum High Density Lipoproteins (Collaborative NIH Grant with LBL) Shore

The above three grants require routine, yearly approval. All protocol involved remains unchanged since the last proposal. Copies are attached.

If you are unable to attend this meeting please let me know.

8. Dr. Smith -
