Dear Mr. Martin:

XW-68 Network Diagram

The network diagram, as requested by Mr. G. L. Dittman on September 15-16, 1966, is enclosed. The diagram outlines the research, development, and preproduction activities which we consider necessary to support the potential production program as described by Mr. Dittman.

We are prepared to begin at once on portions of the program which are within the capabilities of our present staff and facilities. However, if the activities outlined are to be completed on the indicated time schedule, adequate funding to support this level of activity must be authorized by the AEC on a commensurate schedule.

If there is any other information which I can provide, please contact me.

Very truly yours,
