

- for 1978 and 1979, totals for “Space and Terrestrial Applications *Operating Expenses*” “Space and Terrestrial Applications *Capital Equipment*” were used, but from each of these totals, sub-items for “*Terrestrial Isotope Applications*” were subtracted. In 1978, the latter amount was substantial for “Operating,” \$4,400 thousand; but in 1979, the figure on this item was \$4,300 thousand.
- for 1980-1982, subtotals under “Advanced Nuclear Systems” were taken for “Space and Terrestrial Applications *Operating Expenses*” and “. . . *Capital Equipment*,” and the sub-item “*Terrestrial Isotope Applications*” was subtracted, amounting to \$2,000 to \$2,700 thousand in each of those years.
- for 1983-1985, subtotals under “Advanced Nuclear Systems” were taken for “Space and Special Applications *Operating Expenses*” and “. . . *Capital Equipment*,” and the sub-item “*Special Applications*” (described as heavily terrestrially-oriented) was subtracted. This item amounted to -0- in 1983 and \$1,000 thousand in 1984 and 1985.
