

High-Productivity Bioreactors	45
Base Oil Separation and Characterization	45
Intermediate and High-Temperature Lubricants	45
Lubrication at Elevated Temperatures	46
Coatings for High-Speed Cutting Tools	46
Energy-Related Inventions Program	48
Packaging and Shipping Fresh Produce without Refrigeration	48
Aluminum Roofing Chip System	48
Steam Turbine Packing Ring	49
Alter-Break	49
Composite-Reinforced Cylinders and Pipelines	49
Exfoliated Graphite Fibers	50
Integrated Concrete Technology	50
Compressor Control Systems	50
High-Efficiency Water Heater	51
