LIST OF FIGURES.....	vii
LIST OF TABLES.....	ix
ACKNOWLEDGEMENTS.....	xi
EXECUTIVE SUMMARY.....	xiii
ABSTRACT.....	xix
1. INTRODUCTION.....	1
1.1 BACKGROUND AND PURPOSE.....	1
1.2 THE TECHNOLOGY TRANSFER PROCESS.....	2
1.3 OVERVIEW OF THE REPORT.....	5
1.4 BARRIERS TO INNOVATION IN THE BUILDINGS INDUSTRY.....	6
1.4.1 Barriers to Research and Development.....	7
1.4.2 Barriers to Market Entry and Penetration.....	8
1.4.3 Regulatory and Legal Barriers.....	10
1.5 POTENTIAL FOR ENERGY SAVINGS IN BUILDINGS.....	11
2. ALTERNATIVE TECHNOLOGY TRANSFER STRATEGIES.....	13
2.1 CONTRACTING R&D TO INDUSTRIAL PARTNERS.....	14
2.2 INDUSTRIAL CONSORTIUM APPROACH.....	14
2.3 LICENSING TO INDUSTRY.....	16
2.4 INFLUENCING KEY DECISION-MAKERS.....	16
2.5 WORKING WITH BROKER ORGANIZATIONS.....	17
2.6 GENERATING END-USER DEMAND.....	17
3. RESEARCH DESIGN.....	19
3.1 CASE STUDY SELECTION CRITERIA.....	19
3.2 DATA COLLECTION METHODS.....	20
3.2.1 The Use of Aggregate Statistics	21
3.2.2 The Use of Statistics from Manufacturers, Trade Associations, and the Trade Press.....	24
3.3 PRESENTATION OF CASE STUDIES RESULTS	25
3.4 FOOTNOTES TO SECTION 3.....	25
4. STRATEGIES USED FOR FULLY-COMMERCIALIZED INNOVATIONS	27
4.1 LOW-EMISSIVITY COATINGS FOR WINDOWS.....	27
4.1.1 The Innovation.....	27
4.1.2 The DOE Role.....	27
4.1.3 Importance of LBL/DOE Role.....	29
4.1.4 Market Penetration.....	30
4.1.5 Energy Savings	31
