

Project Number: _____

TECHNOLOGY CHARACTERISTICS

We are interested in knowing about the features of your ERIP technology that you believe represent benefits to users or to the public. Please check all the boxes below that are applicable to your technology and provide a brief description for all those you check.

Energy savings. Explain: _____

Energy production. Explain: _____

Environmental benefits. Explain: _____

Other quality or performance improvements or cost or resource savings. Explain: _____

ERIP ASSISTANCE

ERIP seeks to accelerate the commercialization of energy-related inventions by offering several kinds of assistance. Please rate each of the following types of assistance, from not at all helpful to extremely helpful, based on helpfulness to the commercialization of your technology.

	Not at all helpful		Somewhat helpful			Extremely helpful	
	1	2	3	4	5	6	7
Technical evaluation by NIST	<input type="checkbox"/>						
Grant (Skip if no DOE grant has been received)	<input type="checkbox"/>						
Commercialization Planning Workshop	<input type="checkbox"/>						
Assistance with networking and other benefits provided by DOE Invention Coordinators	<input type="checkbox"/>						
Assistance with raising funds due to the credibility associated with participation in ERIP	<input type="checkbox"/>						
Assistance with sales or licensing due to the credibility associated with participation in ERIP	<input type="checkbox"/>						
Other (Describe):	<input type="checkbox"/>						
Did (or do) you have any needs that were not met? _____
