

technologies, model organisms; and evaluation of progress and consideration of long-term goals. Members also serve on the Joint DOE-NIH Subcommittee on the Human genome, for interagency coordination. The coordination group also participates in interface programs with other facilities and provides scientific support for development of other OHER goals, as requested.

## **Support of Human Genome Program Proposal Reviews**

### **Walter Williams**

Education/Training Division; Oak Ridge Institute for Science and Education; Oak Ridge, TN 37831-0117

The Oak Ridge Institute for Science and Education (ORISE), operated by Oak Ridge Associated Universities, provides assistance to the DOE Office of Health and Environmental Research in the technical review of proposals submitted in response to solicitations by the DOE Human Genome Program. ORISE staff members create and maintain a database of all proposal information; including abstracts, relevant names and addresses, and budget data. This information is compiled and presented to proposal reviewers. Before review meetings, ORISE staff members make appropriate hotel and meeting arrangements, provide each reviewer with proposal copies and evaluation guidelines, and coordinate reviewer travel and honoraria payment. Onsite meeting support includes collecting all reviewer evaluation forms and scores, entering reviewer scores into the database, preparing appropriate reports, providing onsite computer support, and handling all logistical issues. Other support includes assistance with program advertising and preparation of reviewer comments following each review. ORISE may also assist with pre- and post-review activities related to conferences, seminars, and site visits.

DOE Contract No. DE-AC05-76OR00033.

## **Former Soviet Union Office of Health and Environmental Research Program**

### **James Wright**

Education/Training Division; Oak Ridge Institute for Science and Education; Oak Ridge, TN 37831-0117  
423/576-1716, Fax: /241-2727, [wrightj@orau.gov](mailto:wrightj@orau.gov)

The Former Soviet Union Office of Health and Environmental Research Program, sponsored by the U.S. Department of Energy, Office of Health and Environmental Research, recognizes outstanding scientists in the field of health and environmental research from the independent states of the former Soviet Union. The program fosters the international exchange of new ideas and innovative approaches in health and environmental research; strengthens ties and encourages continuing collaboration among Russians and U.S. scientists; and establishes and maintains environmental research capability in the former Soviet Union. The program has supported more than 23 Russian principal investigators and approximately 110 other research associates in Moscow, St. Petersburg, and Novosibirsk. More importantly, the program has enabled many high quality Russian biological, genome informatics, physical mapping and mutagenesis detection, human genetics, biochemistry, DNA sequencing technology, protein analysis, molecular genetics, and other related research infrastructures to continue operating in an uncertain economic environment.
