

MASTER

MAY 31 1962

A STUDY OF THE KINETIC AND MECHANICAL PROPERTIES  
OF A STABILIZED BETA PHASE PLUTONIUM ALLOY

A Thesis

Presented in partial fulfillment of the requirements for the

Degree of Master of Science

Major in Chemistry

in the

University of Idaho Graduate School

by

John Maurice Taylor

1962

LEGAL NOTICE

This report was prepared as an account of Government sponsored work. Neither the United States, nor the Commission, nor any person acting on behalf of the Commission:  
A. Makes any warranty or representation, expressed or implied, with respect to the accuracy, completeness, or usefulness of the information contained in this report, or that the use of any information, apparatus, method, or process disclosed in this report may not infringe privately owned rights; or  
B. Assumes any liabilities with respect to the use of, or for damages resulting from the use of any information, apparatus, method, or process disclosed in this report.  
As used in the above, "person acting on behalf of the Commission" includes any employee or contractor of the Commission, or employee of such contractor, to the extent that such employee or contractor of the Commission, or employee of such contractor prepares, disseminates, or provides access to, any information pursuant to his employment or contract with the Commission, or his employment with such contractor.
