The submitted manuscript has been created by the University of Chicago as Operator of Argonne National Laboratory ("Argonne") under Contract No. W-31-109-ENG-38 with the U.S. Department of Energy. The U.S. Government retains for itself, and others acting on its behalf, a paid-up, nonexclusive, irrevocable worldwide license in said article to reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly, by or on behalf of the Government.

For submittal to the Materials Research Society fall meeting, Boston, MA, December 1-5, 1997.

\*Work at Argonne is supported by the U.S. Department of Energy, Federal Energy Technology Center, under Contract W-31-109-Eng-38.
