[†] The ComPASS project is supported under the SciDAC program by the U.S. Department of Energy Office of High Energy Physics, Office of Nuclear Physics, Office of Basic Energy Sciences, and Office of Advanced Scientific Computing Research. The simulation work presented here used resources of the National Energy Research Scientific Computing Center and the Fermilab Lattice QCD facility. The work at Lawrence Berkeley National Laboratory was also supported by the Director, Office of Advanced Scientific Computing Research, Division of Mathematical, Information, and Computational Sciences of the U.S. Department of Energy under contract DE-AC02-05CH11231.
