CONFIDENTIAL DOCUMENT

PREFACE

This document provides references to the diverse environmental activities conducted on the Hanford Site and the data available for the years 1989 through 1993. The bibliography includes presentations, articles, and reports that were prepared mainly by staff of the Pacific Northwest Laboratory, primarily for the Department of Energy, other onsite contractors, and other agencies and/or organizations involved in environmental studies at Hanford. References listed in the bibliography include: 1) abstracts and articles published in peer reviewed, scientific journals; 2) abstracts and/or articles published in symposia proceedings; 3) annual and topical technical reports, and unpublished presentations made at scientific or technical meetings. Bibliographical sources of information available for the years prior to 1989 include:
