

Students' go-to source...for homework help, project ideas, competitions, internships, activities, and more.

Why use ScienceLab?

You can browse science, technology, engineering, and math (STEM) resources from across DOE, all from a single place. Unique features include:

- 1 Free one-stop access to DOE's STEM education resources
- 2 Ability to filter search results by resource type and grade level
- 3 Interactive platform where users can comment on and rate resources

Want to search by category? Use **Find it Fast**, a quick search by topic on the homepage. ScienceLab is designed with students in mind. Teachers and the public will also find it useful.
