Over 60 countries and growing

WorldWideScience.org

www.WorldWideScience.org

- **Connect to** authoritative global science information!
- **Search over 400 million pages** of important science information across every inhabited continent with just one query!
- **Explore a multitude of science sources** not readily available through any other search engine!

Users get the most current findings in fields such as energy, medicine, agriculture, environment, and basic sciences. Much of the information accessed via this gateway is freely available and open domain.
