Over 70 countries and growing

WORLDWIDE SCIENCE.org

www.WorldWideScience.org

- **Search over 400 million pages** of important science information across every inhabited continent with just one query.
- **Simultaneously explore a multitude of nationally-sponsored science sources** not readily available through any other search engine!
- **Eliminate language barriers** through multilingual translations across ten languages.

Users get the most current findings in fields such as energy, medicine, agriculture, environment, and basic sciences. Much of the information accessed via this gateway is freely available.
