Easy access to global science information

- ▶ **Search over 400 million pages** of important science information across every inhabited continent with just one query!
- ▶ **Explore a multitude of science sources** not readily available through any other search engine!
- ▶ **Eliminate language barriers** through multilingual translations!
- ▶ **Get the most current findings** in fields such as energy, medicine, agriculture, environment, and basic sciences. Much of the information accessed via this gateway is freely available and open domain.
