

to Reactivity of Protein Sulfur Functions. II. The Effect of Hydrophobic Bulk on the Nucleophilicities of Alkyl-Substituted Benzenethiolate Anions Towards Disulfide Bonds," (1972) J. Org. Chem. 37, 3804-3810.

Publications in press

21. Rosing, Jan, Kayalar, Celik, and Boyer, P.D., "Probes of Energy Input in ATP Formation by Oxidative Phosphorylation," (1975) in press, Proceedings of the International Symposium on the Structural Basis of Membrane Function, Tehran.
22. Boyer, Paul D., "Energy Transductions in Biological Systems," (1975) in press, publications of Pontificia Academia Scientiarum, Vatican, Rome.
23. Boyer, Paul D., Smith, Dan J., Rosing, Jan, and Kayalar, Celik, "Bound Nucleotides and Conformational Changes in Oxidative and Photophosphorylation," (1975) in press, Proceedings of the International Symposium on Electron Transport Oxidative Phosphorylation, Fasano, Italy.
24. Boyer, P.D., "A Model for Conformational Coupling of Membrane Potential and Proton Translocation to ATP Synthesis and Active Transport," (1975) FEBS Letters, in press.
25. Rogers, G.A. and Boyer, P.D., "Identification of Methionine, Histidine, and Glutamate at the Active Sites of Fumarase," Presented at the Pacific Slope Biochemical Conference, June 1975.
