

**Regulations
for the Safe Transport
of Radioactive Materials
1973 Revised Edition (As Amended)**
(SAFETY SERIES No.6)

**NATIONAL
COMPETENT AUTHORITIES
LIST No.13**

32 / 14

**INTERNATIONAL ATOMIC ENERGY AGENCY
VIENNA, OCTOBER 1981**

FOREWORD

The Agency's transport regulations* lay down certain authorizations and approvals which have to be given by an appropriate competent authority not only for national but also international transport of radioactive materials.

As a supplement to its Regulations the Agency has prepared this list of National Competent Authorities based on information supplied by the respective Member States. This list will be added to, and kept up to date by, the publication of revised lists from time to time.

In the Regulations the International Vehicle Registration Identification Code (VRI) of the issuing country is included in the identification mark of each competent authority approval certificate. The available Vehicle Registration Identification Codes have therefore been included in this list.

Specific information on package approvals issued by individual Member States is available from the competent authority of that country. The Agency is establishing a compilation of valid package approval certificates from all Member States to respond to technical and administrative inquiries concerning such approvals.

**NATIONAL COMPETENT AUTHORITIES
RESPONSIBLE FOR
APPROVALS AND AUTHORIZATIONS
IN RESPECT OF THE TRANSPORT OF
RADIOACTIVE MATERIAL**
