for the Safe Transport
of Radioactive Materials
1973 Revised Edition**

(SAFETY SERIES No.6)

**NATIONAL
COMPETENT AUTHORITIES
LIST No.6**

**INTERNATIONAL ATOMIC ENERGY AGENCY
VIENNA, JANUARY 1974**

XA0100456

FOREWORD

The Agency's transport regulations* lay down certain authorizations and approvals which have to be given by an appropriate competent authority not only for national but also international transport of radioactive materials.

As a supplement to its Regulations the Agency has prepared this list of National Competent Authorities based on information supplied by the respective Member States. This list will be added to, and kept up to date by, the publication of revised lists from time to time.

In the next revised edition of the Regulations it is likely that the International Vehicle Registration Identification Code (VRI) of the issuing country will be included in the identification mark of each competent authority approval certificate. The available Vehicle Registration Identification Codes have therefore been included in this list.

**NATIONAL COMPETENT AUTHORITIES
