

MICHIGAN STATE
UNIVERSITY

August 5, 2010

Walter Warnick, Director
Office of Scientific and Technical Information
U.S. Department of Energy
Post Office Box 62
1 Science.gov Way
Oak Ridge, TN 37831

Dear Dr. Warnick:

Thank you for calling to my attention the fact that Michigan State University is featured on the EDUconnections Web site and is a highlighted link from the OSTI home page. It was very nice to be included among those showcased there.

MSU has enjoyed a long and productive relationship with DOE over the years across a range of disciplines and looks forward to deepening that relationship as the Facility for Rare Isotope Beams develops. It has been a true pleasure for me and for our team to work with DOE representatives around the country, and it is gratifying to know MSU enjoys the agency's confidence as a steward of the public's resources.

We all are working diligently to do more with less in many ways, and I salute your own success in leveraging technology to promote governmental transparency and to underscore the value of publicly supported research and development. We also strive toward those ends, and I'm sure we will be watching OSTI's communications program as we move forward.

Sincerely,

Lou Anna K. Simon, Ph.D.
President, Michigan State University
