

DOE Data ID Service

**Providing pathways to Department of Energy
scientific research data**

“OSTI can provide digital object identifiers (DOIs) to datasets resulting from DOE-funded research. To improve the discoverability of and attribution for datasets created and used in the course of the research, DOE encourages the citation and identification of datasets with persistent identifiers such as DOIs.”

– DOE Public Access Plan

Access ----> DOE Research Data

OSTI, a member of DataCite, enables the discovery, access, and reuse of data by assigning DOIs to publicly available datasets resulting from DOE-sponsored research.
