Dear Warren:

Enclosed is a copy of the preliminary response which the Laser Classification Panel has just sent to the Chairman of the AEC. I am also enclosing a copy of the letter of appointment of the Panel members which contains the five specific questions which the Commission asked the Panel to consider.

As you can see from the content of the Panel's letter, they are seeking reactions from the Commission, the laboratories, etc. To obtain these reactions, I am sending copies of this letter to the members of the Senior Reviewers, the Directors of the three weapons laboratories and to Carl Walske and John Foster.

Since the next meeting of the Panel is scheduled to take place in late April, it would be very helpful if we could have your reactions to the preliminary response by April 10 or earlier if possible.

Best regards,

C. L. Marshall
