LASER CLASSIFICATION PANEL

DOES NOT CONTAIN  
UNCLASSIFIED CONTROLLED  
NUCLEAR INFORMATION

The interim response of the Laser Classification Panel, which was forwarded to Chairman Seaborg in the form of a letter dated February 5, 1971, contains a request for comment from the Commission, the AEC staff, and AEC laboratories. In addition, the Panel had requested that the reaction of the Department of Defense, specifically Dr. John Foster and Dr. Carl Walske, also be obtained. Accordingly, copies of the interim response will be sent to the Directors of the Los Alamos, Sandia and Livermore Laboratories, to the members of the Committee of Senior Reviewers, to the appropriate senior staff in the AEC, and, in addition, to Dr. Walske and Dr. Foster.

The Panel plans to meet again late in April or early May to discuss the reactions that they will have received by that time from the recipients of the interim response. The Panel hopes, at that time, to provide the Commission with their final recommendation.

C. L. Marshall, Director  
Division of Classification
