CLASSIFICATION CANCELLED  
OF CHANGED TO Unclass  
BY AUTHORITY OF DOC  
BY George M Keller DATE 23 May 64

Dear Mr. LeBaron:

The Commission would like to express its appreciation for the technical excellence of the GREENHOUSE technical film which a number of us have already reviewed. The film certainly covers its subject in a remarkably clear and complete manner. It is this complete coverage, however, which gives us some concern.

It is our feeling that the film has great value for a relatively small group of senior policy level people and for scientists whose work is closely allied to the weapons development field. It does not appear, however, that the film would have great usefulness as an adjunct to general orientation or training programs. Furthermore, its content is so sensitive as to warrant, in our opinion, very close control of its use.

9/2/51  
972006  
(M/M/CD)

Accordingly, we would like to suggest for the concurrence of the Department of Defense a policy for the control of the film as follows:

- a. That a permanent record be maintained of all persons viewing the film, the record to be initiated with a list of those who have already seen it in Washington, and to be supplemented by subsidiary permanent lists maintained by the responsible custodians.
- b. That there be three prints only of the film in addition to the master copy in permanent storage at Lookout Mountain Laboratory, with the prints in the permanent custody of the ADC, Washington, the Armed Forces Special Weapons Project, Washington, and the Los Alamos Scientific Laboratory. We suggest the AFSWP copy be the existing 35 mm version and that the ADC, Washington and the LASL copies be 16 mm versions.
- c. That a cut version of the present film be prepared, having a maximum classification of Secret - Restricted Data, to be used for training purposes and indoctrination of those persons not having a need to know the complete story of Operation GREENHOUSE.
