Encl: (1) Supplemental Report of Human Radiation Experiments,  
September-October 1994

1. Enclosure (1) is forwarded.
2. This report summarizes search activities for September and October 1994. It reports documents identified in response to Advisory Committee requests, Secretary of Navy archive searches, Naval Radiological Defense Laboratory archive searches and a listing of archive holdings searched. One additional study is reported. This brings the total to date of BUMED studies identified to 817.
3. Concurrent copies of this report has been provided directly to the Presidents Advisory Committee, Chief of Naval Operations Code N-312 and the DoD Radiation Experimentation Command Center.
4. If you have any questions, please call me on (301) 295-5410.
