Mr.

SPECIAL NOTICE

For your information, a list of conferences dealing with bone marrow transplantation and chemical protection against radiation damage are given below. Some of these meetings (marked with an asterisk) are in the final planning stages, and detailed information will be sent out either from Oak Ridge or the sponsoring organization during the next few months. The other meetings are only tentatively scheduled, and additional information will be sent out later.--C. C. Congdon

NAV1.941208.079
