NAV1.950301.001a

6470
Ser 00/00014
24 February 1995

From: Head, Human Radiation Experimentation Task Force
To: Chief of Bureau of Medicine and Surgery

Subj: HUMAN RADIATION EXPERIMENTS

Encl: (1) Supplemental Report of Human Radiation Experiments, February 1995

1. Enclosure (1) is forwarded.
2. This report summaries search activities for February 1995. It reports previously classified documents identified in searches at the National Archives, San Bruno which have been declassified, and specific responses to requests from the President's Advisory Committee on Human Radiation Experiments. No additional studies are reported, leaving the total Navy studies reported at 871.
3. Concurrent copies of this report have been provided directly to the President's Advisory Committee, Chief of Naval Operations Code N-312 and the DoD Radiation Experimentation Command Center.
4. If you have any questions, please call me on (301) 295-5410.
