

DECLASSIFIED PER EXECUTIVE ORDER 12356, SECTION 3.3, NND PROJECT NUMBER NM 947527 BY RB/VSW, DATE 6/21/94

NAV1.960105.012A

The following was abstracted in the analytical work covered in this report:

- 1. A. Taylor (MC)
- 2. A. Muesel (MC)
- 3. J. Wright (MC)

**RADIATION CONTAMINATION OF PLANTS, ANIMALS, SOIL AND WATER OF THE MARSHALL ISLANDS AND TRUEN FOLLOWING OPERATION CASTLE FALL-OUT**

Sample collection was supervised by the participation of the following personnel on field trips: **Field Report**

- 1. E. M. Zignar
- 2. E. M. Zignar
- 3. E. M. Zignar
- 4. W. M. Mackart, S. E. Gahn, J. A. Griller, V. K. Shigmon, J. K. Gung

1. A. Taylor (MC) (Date of observation of field)

The following were particularly knowledgeable concerning the field work:

Dr. E. M. Zignar was concerned with radioactivity and its possible impact on the Marshall Islands.

The following were particularly knowledgeable concerning the field work:

U. S. NAVAL RADIOLOGICAL DEFENSE LABORATORY  
San Francisco 24, California

<b>Acknowledgments:</b>	11
<b>Contents</b>	112
<b>List of Tables:</b>	118
<b>Chapter 1 - Introduction</b>	1
1.1 Objectives	1
<b>Chapter 2 - Gross Activity in Plants, Soil, Coral, Algae, and Water</b>	3
2.1 Procedures at the Laboratory	3
2.2 Results and Discussion	3
2.2.1 Major Results	3
2.2.2 Miscellaneous Plant Samples	3
2.2.3 Soil	3
2.2.4 Coral, Lagoon Bottom Silt and Algae	3
2.2.5 Water	3
<b>Chapter 3 - Nature of the Spiculated Contamination in Plants, Soil, Coral, Lagoon Bottom Silt and Water</b>	13
3.1 Results and Discussion	13
<b>Chapter 4 - Internal Contamination of Fish, Marine Specimens, and Birds</b>	18
4.1 Laboratory Procedures	18
4.2 Results and Discussion	19
<b>Chapter 5 - Gross Beta Notes</b>	28
5.1 Results and Discussion	28
5.1.1 General Surveys	28
5.1.2 Surveys at Specific Locations	29
<b>Chapter 6 - Summary</b>	31
6.1 Conclusions	31
6.2 Comments on Future Work	31
