1. Name of Committee: Research and Engineering Coordinating Committee on Atomic Energy
2. Authority for Creation: Department of Defense Directive No. 5128.18, Subject: "Coordination of Research and Development on Atomic Energy", 6 January 1954.
3. Purpose for which created: "The Research and Engineering Coordinating Committee on Atomic Energy is provided as a staff mechanism for achieving a sound, coordinated and integrated research and development program for the Department of Defense in the field of atomic energy".
4. Date Created: 6 January 1954.
5. Name of Members, etc.: See attached list.

Members serve part time with the Committee.
6. Man-years of Staff Assistance Required:
 - a. Man-years expended by members of the group.
 - b. Man-years expended by staff assigned to the group.
During the reporting period, the group held two meetings each lasting about two hours. It is estimated that members of the group expended a total of 4 man-days for these meetings. For the staff, the total time is estimated to be 2 man-days. The majority of the work of the committee is conducted in the circulation of documents and their coordination with the members individually. During the reporting period 14 documents were thus informally coordinated.
7. Cost of operations: No record of cost of operations was maintained.
8. Financing: OSD funds.
9. Minutes: These were maintained.
10. Reports: To the Director of Defense Research and Engineering.
11. Action on Recommendations:

All the recommendations made at the two meetings were accepted and implemented.
12. Recommendations re Contracts:

Any contracts resulting from these recommendations were made independently by the Atomic Energy Commission.
