Dear _____

The Atomic Energy Commission and the National Military Establishment are continuing to give consideration to the excellent report of the Joint Panel dated 10 January 1949, and are taking action to implement the Panel recommendations.

In view of the outstanding value of the Panel Reports, it is believed that the presently constituted Panel can render great additional service by again reviewing the entire program in late 1949 as suggested in the August report.

Although the program is well under way, much remains to be achieved in the development phase before appropriate recommendations concerning the establishment of a stockpile of suitable agents or a useful military weapon can be made.

The undersigned therefore jointly urge that you continue to serve on the Panel until it has completed the review scheduled for the Fall of 1949.

Very sincerely,
