

Feb 14, 1972

Dear Dr. Gall,

Since a more complete  
 review study of total radiation  
 of which you are best informed,  
 we as an organization are asking  
 that you, due to your advanced  
 age, would submit yourself  
 as a patient. The writer could  
 report from you a close record  
 of your progress because of a  
 more intelligent series of tests.  
 This perhaps would spare  
 many young lives.

Then too, there are many  
 criminals, who would gladly

submit to the tests.

These contributions, we  
are sure, would be most help-  
ful.

We shall thank you  
for your interest and partic-  
ipation.

Sincerely

The Deformats

P.S. We also are interested in  
Kidney Machine Treatment  
clique.
