TO Laboratory Personnel

FROM Chief, Med Officer  
Ofc of the Dir  
Biomed Lab

DATE 24 Sep 76 CMT 1  
LTC Chipman/mg/2216  
RCC2.950224.054

1. Sustained high blood pressure is a known participant of heart attacks and stroke. Periodic measurement of blood pressure will detect unsuspected hypertension which could lead to appropriate treatment and the prevention of some heart attacks and strokes.
2. As a voluntary service to laboratory personnel the nursing section located on the ward in Bldg E3100 can measure your blood pressure any morning between 0800 and 1200 hrs. Those with elevated readings can report the results to their physicians. No treatment will be given in the laboratory.

*Martin Chipman*  
MARTIN CHIPMAN, M.D.  
LTC, MC  
Chief, Medical Officer
