

S: 15 Aug 67

SMUEA-CCCR

1 August 1967

SUBJECT: 22-26 September 1967 Synthesis of Tagged Agents

TO: DISTRIBUTION

1. Defence Research Establishment Suffield (DRES), formerly Suffield Experimental Station (SES), is planning the next radioactive synthesis for 22-26 September 1967. As in previous syntheses, five compounds (from the usual list of G and V Agents) and also two tri-alkyl phosphates, will be prepared.

2. The following information on your requirements is needed so that choice of agents can be made:

a. The compounds and quantity (ml) of each compound required and whether other compounds may be substituted for these.

b. The preferred level of activity (mc/ml) in each compound.

c. A very brief statement of the experiments to be carried out with each compound.

d. If no requirement exists, negative reply is requested.

3. Formal loan request forms (6 copies) covering your requirements should be forwarded to this office no later than 15 August 1967.

1 Incl
as par 3

SUBJECT: Request for Loan of ~~BRITISH~~ Canadian Item (s) EA-3148, GB,
GD, and VX, described in para 1, a., below (all P³²-labeled)
(Enter Name of Item)

TO: Quadripartite CBR Standardization Office
Building 5101
Edgewood Arsenal, Maryland

1. It is requested the following material be furnished for tests under the provisions of AR 1-70. Information pertinent to this request follows:

P³²-labeled, 150 mc/ml or higher, EA-3148, GB, GD, and VX

a. Name of item: _____

b. Development or Standard (adopted) type if known: _____

c. Quantity desired: EA-3148, 2 ml; GB, 2 ml; GD, 2 ml; VX, 8 ml

d. Reason for loan: EA-3148, GB, and GD are for studies of agent effects on various body systems. VX is for skin and clothing penetration studies

e. Date loan is desired: September 1967 synthesis

f. Date of any previous loan of this item: Previous syntheses

g. Reason for urgency of loan: _____

h. Address of consignee in full:

US Army Edgewood Arsenal Research Laboratories

Medical Research Laboratory

Edgewood Arsenal, Maryland 21010

ATTN: Property Officer - Mr. Robert B. Stewart

NOTE: Seven copies should be forwarded to addressee.

Folder name: 40-31b Volunteer Requests and Reports Correspondence '67

i. How item should be shipped (include any special packaging requirements, technical escort requirements, etc., so that UK and Canadian packages will meet ICC requirements for transmission of the specific item in the US): ~~Motor vehicle~~

Expendable. Will not be returned

j. Duration of loan requested: _____

k. ~~Request highest practicable purity on all compounds~~
Request highest practicable purity on all compounds

2. Remarks: _____

MEMO FOR RECORD: EA-3148, GB, GD, and 3 ml VX are for Physiology Department. Five ml VX are for Toxicology Department. This reply is in response to a periodic request.
