Dear Ms. Gorelick:

This is to acknowledge receipt of your memorandum dated 18 February 1994, identifying no radiation experiments involving human subjects.

The Department of Defense has established the DOD Radiation Experiments Command Center (RECC), to collect, review, and categorize information regarding DOD involvement in human ionizing radiation experiments from 1944 to the present.

Please direct any future information and inquiries regarding this matter to:

DOD Radiation Experiments Command Center (RECC)

Our commercial telephone number for interdepartmental matters is (703) 602-1365, and our fax number is (703) 602-5971.

We are presently developing a standardized format to facilitate the transfer of abstracted project information from DOD organizations to an automated database in our office. In the event that your organization should identify any experiments in the future, please contact us and we will provide you with this format.

Thank you for your assistance in this important effort.

Sincerely,
