MEMORANDUM FOR ASSISTANT TO THE SECRETARY OF DEFENSE
(ATOMIC ENERGY)

SUBJECT: FINAL REPORT-Locating Records of DoD Human Radiation
Experiments

A check of records currently held by my office has revealed no records relating to DoD Human Radiation Experiments.

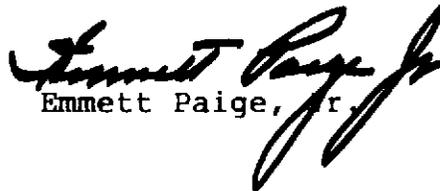

The following activities have also reported negative findings:

Defense Information Systems Agency
Defense Investigative Service
Defense Mapping Agency
National Security Agency
Central Imagery Office
Defense Support Program Office
National Reconnaissance Office

The Defense Intelligence Agency has forwarded a list of titles of Defense Nuclear Agency (DNA) sponsored reports to DNA for evaluation. The Command Center and DNA are working this issue.

As per discussions with Dr. Soper, since there have been no indicators of ASD(C3I) involvement with radiation experiments, we will not search our archives at the Federal Records Center unless specific indicators of ASD(C3I) sponsorship or supervision of experiments are identified.

A point of contact on my staff is Ms. Lindsey Williams, Director, Intelligence Systems, at (703) 695-1829.
