Dr. Roy H. Turner
Department of Medicine

Dear Doctor Turner:

I have received your letter concerning a proposed joint investigation and I can say that we would be very much interested in participating in such a study. Unfortunately, as you probably know, Dr. Brown is no longer with us having left to join the Mahorner Clinic on the first of January. This has left us quite short in the Laboratory, particularly with the Clinical Laboratory course in which I am involved and Physical Diagnosis which Dr. Stuckey heads up, taking a great deal of our time for the next several months. It will be impossible for us to get anything started before the latter part of the Spring, but I would very much like to discuss this with you in some detail at as early a date as is possible.

Sincerely,

Charles C. Sprague, M.D.
