

UNIVERSITY OF CINCINNATI
(INTERDEPARTMENTAL CORRESPONDENCE SHEET)

UCM1.951211.087

To **Dr. Edward A. Gali**

From **Dr. Clifford G. Grulee, Jr.**

Date **January 31, 1972**

On January 28, I was asked by Al Kuettnner to respond to a call from a Mr. Brad Davies from the Medical World News. Mr. Davies wanted to know when the current support from the DSD ended and he wanted to know whether we had just put in for another two years of support from the DOD. I told him I could not give him exact information on either point because I simply did not have it at hand. I assured him that I was not trying to be obtuse or evasive. In discussing the Blue Ribbon report, I indicated to him that in my opinion the report was for the president of the University and that its contents and the membership of the study committee would only be revealed if and when the president indicated that it should be.

I did read to Mr. Davies the statement from the vice president of the Junior Faculty Association indicating that the other report which has received so much publicity in the East was not an official position of even that small splinter group in our faculty.
