

October 2, 1970

TO: Reviewers

FROM: Evelyn V. Hess, M.D.
Chairman, Faculty
Committee on Research

Subject: Protocol entitled, "THE THERAPEUTIC EFFECT OF TOTAL BODY IRRADIATION
FOLLOWED BY INFUSION OF STORED AUTOLOGOUS MARROW IN HUMANS".
Submitted by:

Edward B. Silberstein, M.D. - Radioisotope

This protocol was originally submitted and approved in March, 1967.
However, since then there have been many changes and a new investigator,
Dr. Silberstein. This project utilizes the B.C.R.C. which is up for
renewal and re-appraisal in the near future.

Please return protocol with your comments to me. Thank you.
