

4 SEP 1968

MFR: The above request is self-explanatory, i.e., Dr. Lasser wants to know why DASA doesn't support USAMRDC's A824 project. The high priority of "Mission Completion and Assured Target Destruction" and DASA's low biomedical budget for NWER make it impossible for DASA to fund this project. In my opinion, if DASA attempted to manage this Army conducted program, a very inefficient, imcomplete program would result.

COORDINATION: COL Leonard A. Crosby, VC and COL Kenneth R. Dirks, MC.

ACTION OFFICER: COL James B. Young, VC, 65957.
