Discontinued Protocols

Wilford Hall USAF Med Cen/SG

1. The Surgeon General's Clinical Investigation Committee has approved the termination of protocols: SGO #454; SGO #691; C-13, SGO #517; F-51, SGO #565; I-84, SGO #657; SGO #701; SGO #647; SGO #687.

2. We are requesting that, for protocols SGO #517, SGO #657, SGO #454, and SGO #691, final reports be prepared and submitted on the basis of work accomplished. It is the responsibility of the medical facility Commander to ensure that investigators fulfill their obligations under AFR 169-6 for progress and final reports.

3. In cases where an investigator has separated from the Service without fulfilling his obligations under AFR 169-6, he will be denied permission to use data generated as a result of investigation supported by the Air Force (and which is therefore the property of the Air Force) in future publications.

SIGNED

HARRY T CERHA, Colonel, USAF, MC
Deputy Director of Professional Services
Office of the Surgeon General
