

Event: AF#0024: Role of Thyrotropin in Goiter and Thyroid Nodules

Event Primary Information

Event Key Classification: *Other Research*

Unknown (Spencer)

Full Title: AF#0024: Role of Thyrotropin in Goiter and Thyroid Nodules

Start Date (mm/dd/yy): 1/72

End Date (mm/dd/yy): 1/75

Abstract: *Summary: Twenty euthyroid patients each with simple goiter, nodular goiter or solitary thyroid nodules were to be studied serially to determine if baseline TSH levels are abnormal or if there is an abnormality of TSH suppression when thyroxine (T4) is given. Five patients with known thyroid carcinoma were also projected to be studied. (Sample ICD in Surgeon General Files)*
